

Notice

TO ALL OWNERS & RESIDENTS:

Ref No. 13-35

DOORS TO FIRE ESCAPE STAIRCASES

To enhance the Safety and Personal security of our place of Residence, a “**One-Way Lock and Break Glass System**” will be installed on all Doors to the Fire Escape Staircases on all floors effective 1 July 2013.

This new security feature allows **EXIT** to the Fire Escape Staircase, but **NOT FROM** the Staircase to the typical floor **unless the Security Glass is broken**.

For Security reasons Doors to the Fire Escape Staircases should always remain closed. **The staircases themselves should only be used in emergencies**, and not as a shortcut between floors or as a means of exercise.

A “**WARNING**” has been placed at the entrance of all Fire Escape Doors.

IN EMERGENCIES

If you need to exit **from** the Fire Escape Staircase to any floor “**BREAK THE SECURITY GLASS**” covering the door handle on the staircase side of the Door. This will enable you to operate the door handle.

An “**IN EMERGENCIES ONLY**” Instruction has been placed on the staircase side of all Fire Escape Doors.

PARENTS

Please ensure your children fully understand the above so that they do not become **TRAPPED** inside the Fire Escape Staircase. Accordingly kindly instruct them not to use the Fire Escape Staircase except in emergencies.

We thank you for your cooperation.

The Management

Date : 25 June 2013
