## FIRE PREVENTION AWARENESS

---

Dear Value Owners / Residents,

We would like bring your attention to an incident that happened on the 19<sup>th</sup> Floor, City Wing, on 8<sup>th</sup> April 2014. A small fire broke out in the store room, originating from an altar table. We were extremely fortunate that the owner raised the alarm immediately, and our security team extinguished the fire without further hazard.

When a fire starts, it can spread easily and very quickly. Many fire incidents are caused by a lack of fire prevention etiquette. Carelessness or ignorance of basic fire safety precautions can ruin homes and bring about tragic loss of family members and property.

In order to safeguard our lives and property, we must be alert to all possibilities of fire hazards and take preventive measures to make our home safe. We strongly discourage the storing of flammable or hazardous material in the store room as this is where the gas, water and electrical conduits are housed. Furthermore, store rooms on most units are located adjacent to the main door, and are the only means of escape in an emergency.

It is therefore vital to be cautious when using decorative bulbs, oil lamps and festive season lights. Please refer to our Home Fire Safety Notes for further information on fire prevention and personal safety.

Thank you.

The Management
