

Notice

TO ALL OWNERS & RESIDENTS:

Ref No. 16-30

NEW CAR TRANSPONDER SYSTEM

Our existing Car Transponder system has with age become increasingly unreliable and also less sensitive. The Management Committee is pleased to inform Residents that we have chosen EA MSC Sdn. Bhd, a proven supplier of Car Transponder equipment for the replacement of our current Cryptag system with a "Raintag" which is reliable and more difficult to clone for tightened security.

Feedback on the proof of concept trial was unanimously positive.

The new Car Transponder System will be installed within the next 2 months. We will inform Residents on the actual mechanics for the return of old transponders and the issue of new ones in due course.

Thank you.
