## GAS LEAK

---

In December 2018, the Management Office received 2 reports relating to gas leak and gas stove unattended. Fortunately, alert by neighbours and the quick response from our Security Supervisor had prevented any untoward incidences.

To prevent further occurrences, we seek your kind cooperation to ensure that all gas stoves are switched off before leaving the unit. We also seek that the pipings are regularly checked for any leaks. For those who still use the Gas Cylinders for cooking, please ensure that the gas hose, pressure regulators, cylinders supplied by the suppliers are in good condition.

Thank you
